

BUYERS THROG CITY'S STREETS.

Merchants From Many States Come to St. Louis to Buy Goods.

REPORT PROSPEROUS TIMES.

Good Crop Outlook Insures General Prosperity—St. Louis Wholesale Dealers Reach Out for Trade.

The opening day of the two weeks' meeting arranged by the Interstate Merchants' Association was a busy one for the wholesale merchants of St. Louis. Yesterday was what might be appropriately termed Inaugural Day of St. Louis's great commercial festival.

The new special-rates schedule granted the association by the railroad companies attracted merchants from Arkansas, Colorado, Indian Territory, Iowa, Minnesota, Nebraska, Oklahoma, Louisiana and Texas, all of whom are flocking to St. Louis to do business with the city's wholesale dealers.

It was only the opening day, but every big wheel in the wholesale district had his buyers, and if the advance guard proves anything the next two weeks will have seen an army of purchasers in the St. Louis market that it has never before seen.

No pessimist, no "bear" in St. Louis's commercial prosperity need seek consolation amid the commercial houses of the city just now. Merchants are not talking "sky" high. They are not boasting. They are content to let the facts speak for themselves to a point where they can judge the trade future about as certainly as the outcome of a well-defined campaign.

Further than this, these newly arrived merchants from the South and West are bringing in reports of a bumper crop of cotton, and a little more uncertainty, but the crop outlook is all through that vast continent of the South and West.

They all tell the same story of splendid corn and wheat harvests. Cotton, though perhaps a trifle short, is exceedingly promising. A few weeks of dry weather and there will be a cotton crop of extraordinary quality and quantity.

These merchants bring with them reports of the districts which they represent. Their local banks are in splendid shape, and the money is ready to buy. They are not looking for a boom, but they are looking for a steady, sure, and profitable business. They are looking for a market that will give them a fair return on their investment.

St. Louis is no longer looking at things from a purely local point of view. It is looking at the Northwest, even such wide domains of territory and population, can be made to produce a surplus of goods for the market. We are selling goods to the Northwest.

THREE INVESTORS ASK FOR BANKRUPTCY ORDER.

Petitions Filed Against the Merchants' Brokerage and Commission Company Are in Marshal's Hands.

Stephen Lee of Mechanicsville, N. Y., Louis Schmitt of Wheeling, W. Va., and H. B. Gray of Crawfordville, Ind., yesterday filed a petition in the United States District Court, asking that the Merchants' Brokerage and Commission Company, which, until Friday, was doing business in the Gay building, Third and Pine streets, be declared bankrupt.

The amount of Lee's claim is \$257.18. Schmitt's amounts to \$93.32, and Gray's to \$100. This money, the complainants allege, was had of them and no accounting made by the brokerage company.

The affairs of the Merchants' Brokerage and Commission Company are now in the hands of United States Marshal Morley under an attachment issued Friday by the United States Circuit Court at the instance of William Wilmered, a farmer, 32 years old, of Freemont, Ill., who sued the brokerage company for \$200, which, he alleges, the company had received from him and made on account.

Marshall Morley has the books and the papers of the concern in his possession, pending the giving of a bond by the defendant to the sum of \$50,000. Heyman Silberman, attorney for the Merchants' Brokerage and Commission Company, stated yesterday morning that the bond would be forthcoming, but up to 5 o'clock in the afternoon it had not been given. Neither could service be secured yesterday upon William J. Peck, president of the company.

Since the bankruptcy proceedings have been filed, it is probable that a trustee will be appointed by the Federal Court to take charge of and wind up the business of the concern.

Higdon, Longan & Hopkins, attorneys for William Wilmered, from whom it is alleged, the Merchants' Brokerage and Commission Company received the \$200, have found and attached \$18,000 belonging to the concern. Of this, \$18,000 is in the Third National Bank, and \$2,000 in the Germania Trust Company.

Large Crowd at Sycamore. Doctor Krebs Lectures on "Frauds of Spiritualism."

Sycamore, Ill., Aug. 3.—Monday's crowd at the chautauqua was large. Doctor Stanley Krebs of Greensburg, Pa., the psychologist, gave his exhibition and lecture on "Frauds of Spiritualism. State Writing and Spirit Control." He lectured on "The Science of the Human Mind," and on "The Science of the Human Mind."

The Glazier-Julien Singers drew the largest crowd of the chautauqua. The quartet, Misses Bertha, Wilton, soprano, and Gertrude Rodden, alto, are great favorites. They sang "The Star Spangled Banner," and "The Star Spangled Banner."

WIFE TAKES POISON AFTER FIRST QUARREL WITH HUSBAND.

MABEL KRAMPS. Nineteen years old, who attempted suicide because her husband would not talk to her.

Because her husband would not speak to her for two hours, Mabel Kramps, 19 years old, yesterday attempted to end her life by swallowing crude carbolic acid.

The prompt action of her husband, Charles T. Kramps, in summoning Doctor Charles D. Moeller of No. 1413 South Ninth street and the immediate use of the stomach pump, saved the young woman's life. She is now in the City Hospital beyond danger, and heartily glad that her attempt upon her life failed.

Mrs. Kramps is pretty and petite. She and her husband were married last January and a quarrel which they had Sunday, followed by the taking of the poison yesterday, has resulted in the present tragedy. The quarrel which has marred their married life.

Yesterday morning the subject of the quarrel Sunday was renewed. Kramps finally lapsed into silence, and for over two hours, so the wife says, he would not speak a word to her. Going into a rear room she poured some carbolic acid into a cup and drank the poison. She then made a dash for the door, but was stopped by the siphon was again used. When told she was out of danger she declared to the attendants that unless her husband made up with her she would repeat the attempt at the first opportunity.

Although Mrs. Kramps' second matrimonial venture, she looked little more than a child as she lay on her cot at the City Hospital.

"Charles wouldn't speak to me," she said, "and I couldn't stand it. We were married last January, and it was our first quarrel. I came to see me this afternoon. If he hadn't I would have tried to kill myself again, and I wouldn't have made a bit of it. As I did this time."

"We made up and I'm glad I didn't succeed in killing myself. That carbolic acid must have been weak, or I didn't take enough of it. But I guess Charles will be good next time and talk to me. I just couldn't stand when he ignored me, and I thought life wasn't worth living if we were going to quarrel."

"What did we quarrel about? Oh, nothing much. A little family quarrel; that was all. I don't think it will happen again, as we've made up and will be happy when I get out of the hospital."

Mrs. Kramps was alone at home last night. "A little family quarrel, as you call it, suppose, to every married couple, was the cause of my wife taking the carbolic acid," Kramps refused to say.

"I didn't think it amounted to much and she was stupid when I found that Mabel had taken the poison. There was no occasion for it, but she is high strung and sensitive."

Mrs. Kramps was divorced from her first husband. She has one child, a little girl, 2 years old.

Arthur P. Gorman Tipped. Pennsylvania Democratic Chairman Says He'll Be Nominated.

Pittsburgh, Aug. 2.—J. K. P. Hall, State Democratic chairman, is creating sentiment for Senator Arthur P. Gorman, who he believes will be the next Democratic candidate for President.

It is evident that the ex-Governor has a tip from those higher in the national councils. It has been learned here that the national Democratic leaders that have gathered at the Democratic convention to back Gorman's candidacy.

Nothing will be done in Gorman's behalf at the Democratic convention to be held at Hartford next month. The convention will not indicate where the State delegates will stand.

Incidentally it can be said that Chauncey F. Black of York is not to be the president of the State Convention. It has been said that Robert G. Patterson, to secure the State delegates for the National Convention.

His name is not to be brought forward for the presidency, and it is doubtful if he will be elected. He is a powerful man, and his name is not to be brought forward for the presidency, and it is doubtful if he will be elected.

Train Wrecking Charged. Warrant Is Issued Against Walter Simon, a Negro.

Walter Simon, a negro, giving his address as McKeville, St. Louis County, is a prisoner in the Clayton jail, charged with attempted train wrecking. He was taken into custody Sunday night shortly after 9 o'clock by Superintendent John L. Meier of the St. Louis Transit Company.

Simon is charged with wrecking the train of the St. Louis and North Western Railroad, reaching the county seat about 12:30 o'clock yesterday morning. The war was against the Pullman Company, and the Pullman Company was the target of the attack.

TWO-CENTS-A-MILE RATES PROBABLE.

Will Effect Territory From Kansas City and St. Paul to Chicago and St. Louis.

RESULT OF MILEAGE WAR.

Chicago Great Western Officials Contemplating Offering for Sale New 1,000-Mile Ticket for Twenty Dollars.

Chicago, Aug. 1.—A flat passenger rate of 2 cents per mile in all the territory from Kansas City and St. Paul to Chicago and St. Louis is a strong probability.

Should it come it will be the direct result of the agitation which has been in progress for some time over a change in the form of interchangeable mileage.

At the same time the Chicago Great Western road may adopt that method of signaling the opening of its new Omaha extension. Officials of the road admit that they have had under consideration for some time past the placing on sale at the opening of their new line 1,000 mile tickets at the flat rate of 20 cents.

The mileage war has been a long one, and it is now being settled. The Chicago Great Western road may adopt that method of signaling the opening of its new Omaha extension.

SHAFT TO REPRESENT HALF CENTURY'S GOLD PRODUCTION.

The State of Nevada Is to Have Most Unique Display at the World's Fair.

Gold and silver production of that State during the time to be symbolized by the shaft will be \$2,000,000,000, and of this amount the famous Comstock lode alone produced \$500,000,000. The State's appropriation for its part in the Exposition is \$20,000.

J. A. Yerington, the Commissioner to the Exposition, who arrived yesterday, says that he hopes to raise an additional \$20,000 to \$20,000. With a part of this money Nevada will erect her building.

A. Enloe, secretary and executive officer of the Nevada Commission, visited the Administration building yesterday to consult the Exposition committee concerning the plan of the Nevada exhibit.

The Nevada exhibit will be a shaft, 100 feet high, and will be erected on the site of the Nevada exhibit. The shaft will be 100 feet high, and will be erected on the site of the Nevada exhibit.
